TRU Picture Engine

TRU Picture Technology provides smooth, upscaled and more detailed viewing whatever you're watching.

Dolby Vision HDR

Immerse yourself in the on-screen action with one of our Toshiba Dolby Vision compatible TVs. The preferred HDR video format of movie makers around the world, Dolby Vision uses dynamic metadata to read and calculate exactly the right brightness level for every TV frame.

HDR10 & HLG (Hybrid Log Gamma)

Bringing you more ways to access HDR content, our TVs not only support the standard HDR video format, HDR10, but also Hybrid Log Gamma or "HLG". This compatibility with HLG future-proofs our models, so that one day you will be able to watch HDR over the air broadcasts.

TRU Resolution

Automatically up-scales non 4K content so you can experience your favourite movies and TV shows in the highest resolution.
